APG MUSICAL - February 20 + 21

Our Annual Musical is happening again at A.P. Giannini Middle School *Newsies Jr.*! *Newsies Jr.* is about newspaper boys and girls in the early 1900's who sell newspapers for a living. The publisher of the newspapers makes new rules, and raises the price to buy papers to make it harder for the newsies to make money, and the kids fight their way through many, many, many challenges, protesting against the odds to show that they have power when they work together. Don't miss it!

DREAM • CREATE • CELEBRATE

Now in its 59th year, the California Student Media Festival (<http://mediafestival.org>) is our nation's oldest continuing student media festival. Over the past twenty-five years, the California Student Media Festival has awarded more than \$179,500 to California Schools. It has expanded to include the work of more than 6,000 student contestants from schools across the state. The Festival exists to celebrate the amazing media and multimedia projects produced by California's K-12 students and teachers — rewarding and acknowledging their successful classroom work at an awards event in spring every year.

The Festival advocates for information and media literacy, encouraging students to display their talents through media and multimedia inside or beyond the classroom. It immerses the students in a culmination of boundless expression, storytelling, learning, and collaboration while it provides educators with the motivation to expand media integration in their own classrooms.

This 501(c)3 organization is managed by its dedicated steering committee of volunteers. These volunteers tirelessly take on various responsibilities for the Festival especially as the event day approaches all while working their full-time careers. The steering committee also relies on the participation of even more volunteers—leading educators, media and technology experts, librarians, and everyday teachers—who judge and select winners to fully execute the festival. To fund the festival, including its prizes, the Festival depends on sponsors and donors.

Festival Vision: A California that elevates and celebrates student learning and creativity through the meaningful use of media and the arts.

Festival Mission: The California Student Media Festival seeks to transform student learning, recognizing creativity and student agency through the cultivation and celebration of original work.

Festival Opportunities: The California Student Media Festival offers several opportunities for students and adults to participate.

Students can produce and enter media products (video, photography, artwork, audio files, interactive media) into the Festival for free. Past student winners can help present, and other student can also help at the Festival event.

Adults can encourage and guide student productions, judge student media products, help plan and carry out the Festival, sponsor the Festival, donate to the festival, and promote it widely.

Important dates: Students may enter their projects between January 20 and April 1. The festival event will be held May 17 at Hollywood High School. For more information about the Festival, visit www.mediafestival.org.

Verification of student absences is accepted only from parents/guardians/caregivers, or the student if they are 18 years old or older.

CA Education Code 48205 states that a student shall be excused from school when the absence is:

- 1 Due to the pupil's illness, including an absence for the benefit of the pupil's mental or behavioral health.
- 2 Due to quarantine under the direction of a county or city health officer.
- 3 For the purpose of having medical, dental, optometric, or chiropractic services rendered.
- 4 For the purpose of attending the funeral services or grieving the death of either a member of the pupil's immediate family, or of a person that is determined by the pupil's parent or guardian to be in such close association with the pupil as to be considered the pupil's immediate family, so long as the absence is not more than five days per incident.
- 5 For the purpose of jury duty in the manner provided for by law.
- 6 Due to the illness or medical appointment during school hours of a child of whom the pupil is the custodial parent, including absences to care for a sick child, for which the school shall not require a note from a doctor.

Importance of Attendance

California law requires that children between the ages of 6 and 18 attend school every day. While the law does not currently apply to children below the age of six, research shows that early education (pre-school and kindergarten) is essential for future academic success. It is the parent/caregiver's responsibility to ensure that their child gets to school every day.

Tips for Parents/Caregivers: Getting to School on Time

- Make sure your child goes to bed early and gets a good night's sleep.
- Develop a morning routine (get dressed, eat breakfast, brush teeth) and stick with it.
- Talk with your child about the importance of attending school every day for academic success.
- Arrange a time every night without interruptions for your child to do homework.

Regular Attendance is Essential!

National and local research has shown that students with frequent absences, whether excused or unexcused, have lower literacy levels, lower grades and higher drop-out rates than students who attend school regularly.

The Governing Board believes that regular attendance plays an important role in student achievement. The Board will work with parents/guardians and students to ensure their compliance with all state attendance laws and may use appropriate legal means to correct problems of chronic absence or truancy. **Absence in excess of 10% or more days of school, whether those absences are excused or unexcused, will be considered Chronic Absence.**
